ESTABLISHED IN THE YEAR 1859

Read This Page

It is a page of vital interest to every man, woman and child—a page that spells "Quality and Economy" in every line.

It is not an advertisement of a special sale, but is a page of honest, straightforward advertising, in which quality is the first consideration—then price. We take advantage of every opportunity to get the best goods that can be sold for the money, and are careful to allow no make-believes or shoddy goods to creep into our stocks—we are trying to build up our business, so can't afford to.

COMPARE OUR PRICES AND QUALITIES WITH THOSE OF ANY OTHER STORE; WE DO NOT FEAR THE VERDICT, BUT FEEL ASSURED THAT THERE WILL BE ONE MORE ADDED TO OUR GROWING LIST OF SATISFIED CUSTOMERS!

The Millinery Section

—Is giving its attention now to the making of hats to suit those who want something stylish and at the same time who do not care to pay a very high price. We feel sure that you will agree they have accomplished their object when you see the great numbers of hats, all in the latest style and made of the best of materials and priced to suit everybody's pocket book.

The new Pure Food and Drug Law
will mark it on the label of every
cough cure containing Opium, Chlor-
oform, or any other stupefying or
poisonous drug. But it passes Dr.
Shoop's Cough Cure as made for 20
years, entirely free. Dr. Shoop all
along has bitterly opposed the use of
all opiates or narcotics. Dr. Shoop's
Cough Cure is absolutely safe even
for the youngest babe—and it cures
it does not simply suppress. Get a
safe and reliable Cough Cure, by
insisting on having Dr. Shoop's.
Let the law be your protection. We
cheerfully recommend and sell it.
Sold by all dealers.

Graves county man, born, raised
and married in same home at age of
79 years.

"When God gives a man a wife
and six children He has done a
great deal for a fellow," says Sam
Jones. "But when he gives him a
society woman and a poodle dog he
has done him up. These society
women look upon children as a
nuisance. I have had some of the
society women shake hands with me
and I had as soon shake hands with
a dead fish's tail. I wouldn't give
one of your sock darned women for
all the society women in the whole
country. Between cutting off the
tops of their dresses for the ball
room and bottom for the bicycle,
these society women will soon have
no clothes left. A man said to a
society woman: 'I hope I will see
more of you.' She said: 'Come to
the ball to-night.' Some people say
I shouldn't speak that tongue to a
mad audience. Your old sisters wear
high collars close around their
necks—that is the modest and comely,
but deliver me from the society
women who button their collars a-
round their waists."—Sam Jones.

Piles quickly and positively cured
with Dr. Shoop's Magic Ointment.
It's made for Piles alone—and it
does the work surely and with sat-
isfaction. Itching, painful, pro-
truding or blind piles disappear like
magic by its use. Large nickel
capped glass jars, 50 cents. Sold
and recommended by all dealers.

Mary had a little money,
Mary saw a little hat,
Mary did a little shopping,
Now her little purse is flat.
Mary wants a million dollars—
Thinks of it and holds her breath.
But if Mary had a fortune
She would shop herself to death.

The postmaster general has kindly
granted permission for mail car-
riers to deliver in automobiles.
Now if he will take one more step
and provide the automobiles and a
chauffeur the carriers will be supremely
happy.

Why not make the best of things
as they come to us? There are cer-
tain ones in this town who have been
complaining of hard times ever since
we knew them. They could not en-
joy the last few weeks of a winter.
They know that crops will be a fail-
ure this year. There is always some-
thing disastrous going to happen. It
is just as cheap and you are worth
more to your family and the town if
you'll look on the sunny side of life.

NAPOLEON BONAPARTE
showed, at the battle of Austerlitz,
he was the greatest Leader in the
world. Ballard's Snow Liniment
has shown the public it is the best
Liniment in the world. A quick
cure for Rheumatism, Sprains, Burns,
Cuts, etc. A. C. Pitts, Rodessa, La.
says: "I use Ballard's Snow Liniment
in my family and find it un-
excelled for sore chest, headache,
corns, in fact for anything that can
be reached by a liniment." Sold by
Cowgill's Drug Store and Helm &
Edwards.

Every inebriate you see stagger-
ing along the road or street you
know is going to make some wom-
an's life miserable. Some wife or
mother, or helpless children are to
be at the mercy of a madman.
You smile at his antics, without pity
for her who is to be the agonized
sufferer, nor give a thought of what
you might do to help her in her
friendless, homeless condition—for
the wife of a drunkard, rich or poor,
living in gilded halls, or squalid hut,
has no home. The tender as-
sociations that cluster around that
sacred name do not include drunk-
enness. The two kingdoms, heaven
and home, do not admit the drunk-
ard. Where he lives is hell.

Hancock county woman who sued

Preventions, as the name implies,
prevent all colds and grippe when
"taken at the sneezing stage."

Preventions are toothsome candy
tablets. Preventions dissipate all
colds quickly, and taken early, when
they first feel that a cold is coming,
they check and prevent them. Pre-
ventions are thoroughly safe for
children, and as effective for adults.
Sold and recommended in 5 cent and
25 cent boxes by all dealers.

That Paducah man who said he
didn't believe a woman ever said no
and meant it has changed his mind.
He asked his wife if she couldn't

We know a father in a neighbor-
ing town in this county who used to
talk to his boys like he did to vicious
animals, and who used a strap on
them at random. He said he was
curbing their dispositions. In years
to come every one of those lads went
to the 'pad. In age they had no
more respect for that father than
they did for Satan. By some means
a father should gain the love and
admiration of his boys.

A young man went to a preacher
to get married, and the preacher
asked "How old are you, John?"
He replied, "I am half as old as my
father. He is two years older than
my mother. My eldest sister is two
years older than my youngest sister.
My youngest sister is four years
older than my youngest brother."
"How old are they altogether?"
asked the preacher. The young
man replied that the five children
are seventeen years older than his

THE PRESS IN THE CAMPAIGN.

We have been forcefully struck in the last few weeks with the significant fact, on carefully looking over the state exchanges, that a very large majority of the reputable Democratic papers are earnestly calling for the smashing of the machine at Frankfort and fearlessly printing the most vigorous and convincing arguments that for the salvation of the Democratic party in Kentucky this is necessary, says the Owensboro Messenger.

Gov. Beckham is reported to have sneeringly said in his Henderson speech that the newspapers that are opposing him are bought up by the whiskey interests. This went down. Many of these newspapers are the strongest advocates of local option, and have been making, and still are, warm fights for temperance and the enforcement of local option laws. It simply means that the Democratic press of the state has become aroused to the necessity of a complete change of administration and administrative methods at Frankfort. The country newspapers are in close touch with the people. They learn very speedily what is public sentiment. They are now voicing a public sentiment that demands a change.

We had no such methods as now prevail at Frankfort under Knott, Buckner or Brown. There were, of course, abuses during those times, but no such culmination of scandals as now confront us.

The Democratic press of Kentucky is doing the party a great service and demanding a change before the Republicans have an opportunity to overwhelm us.

It is also significant at this time that Beckham is now mainly getting his newspaper support from a few notorious Republican and newspaper sheets in Louisville, Owensboro, Henderson and Paducah, papers that for ten years have almost uniformly supported Republican candidates against Democratic nominees, that have decried local machines, more or less mythical, but at the same time undertake to sustain this gigantic state machine. There is, of course, method in this. They will not support the Democratic nominee next year. They will be as usual supporting the Republican ticket, and, therefore, desire to see as weak a Democratic ticket nominated as possible. They do not claim to be Democratic papers. They boast they are not. But they have the brazen impudence to thrust their advice upon Democrats who are about to make up their ticket. The Democratic voters of Kentucky have never taken any stock in the arguments of these known enemies of the Democratic party and its principles, nor will they now.—Henderson Gleaner.

THE SCHOOL BUILDING.

In another column in this issue will be found an interesting contribution from Mr. W. C. Wilson, head of "Thinks I to Myself." Mr. Wilson takes a broad view of the school building question. Before preparing this article, Mr. Wilson talked to us upon the subject, and we agreed to give space to the article in question, in order to ascertain the views of the public. True, while we have realized for some time and in fact commented upon the fact from time to time that the present school building was inadequate for the present enrollment, to say nothing of what will be in future years with the great increase in population what we are experiencing, we had not thought of the question in the light Mr. Wilson puts it. We have said that the building was too small, which is a fact. In former years there was an abundance of room, and to spare, but with the

growth of the city and community representing the school district, the building has gradually but finally become too small to accommodate the classes. If the classes were all accommodated as they ought to be in one building it would require twice the present room. It has been known for some time that the present structure must be enlarged at an early date. But as we said before, we had not thought of the matter in this way; that is to have ward schools and reserve the present structure for the high school and higher grades. Now it is not known how this will meet with the approval of the public; and time alone can tell.

But, Mr. Wilson's idea is plausible, and we ask you to read the article in question. It is interesting.

RAILROAD CHAT.

And now the Charleston, (Mo.) Courier deftly shifts the railroad scenery in the Iron Mountain tableau, "To Build or Not to Build," and again hope "hears the rustle of a wing." Look at it:

"The Iron Mountain will build the new railroad from Henson, this county, to Hickman, Ky. This will be a great benefit to the southeast part of Mississippi county, which is the garden spot of Missouri. The company has the material on the ground and we look for the early completion of the road."

We trust the Courier is not "wasting its sweetness on the desert air" and that we are not again destined to see the flower of hope nipped in the bud by the withering blasts of delay. We believe the Courier is right in citing Mississippi county as the "garden spot of Missouri," but, brother, are you sure the "material is on the ground?" Could you see it with the naked eye, and did you make them "show you?" The truth of the matter is, every indication on this end of the line points to early action in this matter, and we are anxiously waiting to hear "something drop."

The Rev. H. D. McLachlan, of Dixie, who has been on a tour of friends of temperance in which he says he has seen a check for \$3,500 drawn by Charles P. Dehler, secretary of the Frank Fehr Brewing company which was given Judge Hager in 1903 to be used for Hager and Beckham in their campaign and he further asserts that Beckham promised to return not to disturb the liquor interests.

As a temperance man Gov. Beckham might explain to the temperance people here how it is that he appointed on his staff a Louisville brewer, and also made the same, Col. Dehler one of the Commissioners of the Lakeland Insane Asylum. Incidentally an explanation of Col. Dehler's contribution of \$3500 to the campaign fund in 1903 would not be amiss.

Senator McCreary, at Benton, made public a letter written by the Rev. Dr. E. N. Powell to the Rev. H. D. C. MacLachlan, of Shelbyville, in which the Louisville minister declares he cannot vote for Gov. Beckham and says he does not think the temperance people "are called upon to permit themselves to be played with by an insincere man."

J. C. W. Beckham has been governor of Kentucky for more than six years. He has been a temperance crusader for something less than six months. A death bed repentance may carry a man into heaven, but it is a cinch they won't meet him at the gate with a brass band—Pioneer.

Farmers' Institute at Court House, To-day.

A Farmers' Institute was begun at the Court House yesterday and will continue to-day. Prominent speakers from the Experiment Stations of Kentucky and other states will address the farmers on Soil Fertility, Alfalfa, Seed Corn Selection, Winter Feeding of Swine, Summer Feeding of Swine, Fattening Steers, Crop Rotation, Tile Draining, Fertilizers and other subjects of importance to the farmers of this county. This is no advertising scheme as thought by some, but is for the benefit of the farmers, and expenses paid by the State Agricultural Department, under the supervision of the Commissioner of Agriculture. Institute begins at 10 a. m., each day.

Come—if you did not attend the meeting yesterday, be sure and attend to-day.

The total number of voters registered in the two precincts of Hickman was: East Hickman, 92, West Hickman, 133.

W. J. Spradlin and family leave Sunday for Hot Springs, Ark. We are sorry to see these excellent people leave Hickman.

Prison Door Clangs on Former Senator.

Joseph Ralph Burton, of Kansas, the first United States Senator ever convicted of crime while holding a seat in the Senate, surrendered himself to United States Marshal, Wm. L. Morsey at St. Louis, Monday, and was taken to Ironton, Mo., where he will serve his sentence.

Burton's fall is recent history with which the public is well versed. He was the representative, while a United States Senator, of the Rialto Grain Company, a defunct get-rich-quick organization, which was abolished by the government on fraudulent order proceedings. Burton had represented the Rialto Grain Company before the Post-office Department; had exercised his influence and knowledge as Senator in the furtherance of the interests of a concern, which the postal authorities held was fraudulent. A crime was laid at Burton's door, investigation rendered proof of his complicity in a crime; he was arrested, tried, convicted and fined \$2,500 and sentenced to six months' imprisonment in the jail at Ironton, Mo.

No Bill Found against Jim Lambert.

A special to the Commercial Appeal says—At the recent term of court in Charleston, Mo., there was no bill found against Jim Lambert, who shot and killed Clay Dunn, about three months ago at Dorena, Mo., three miles from Hickman. Lambert did not like Dunn's attentions to his wife and warned him to desist. However, Dunn never heeded him, and finally, exasperated, Lambert went after him with a double-barreled shotgun, firing both barrels into his right eye and tearing off a part of the head. Lambert immediately gave himself up. He and his wife have been separated since the affair.

W. C. Nicholson, of Fort Worth, Texas, visited his cousin, Mrs. T. D. Thomas, several days.

Elam-French

Hunter Elam, assistant cashier of the Commercial Bank of Union City, and Miss Hattie French, the beautiful daughter of Foster French of that city, both leading society people, were united in marriage at the First Christian Church at 10 o'clock last Wednesday, Rev. Mr. Casteberry officiating.

While on her death bed last week, Mrs. Annie Edwards, living seven miles west of Mayfield, told one of her relatives that she had hid away \$500 in gold and named the place where to find it. The statement was not given much credence, but last week a search was made, and the money was found concealed in a closet in a room where she forbade anyone entering. She died at the age of 75 years and the money she said had been there for forty years, or during the late civil war, most of the \$500 was in \$20 gold pieces, which have for forty years been lying idle.

Revival Begins in West Hickman Sunday Night.

Revival services will begin at the Hickman Chapel next Sunday night, October 28th at 7 o'clock. On Monday, Rev. W. E. Humphreys, of Murray, Ky., will arrive and preach day and night during the entire week. All Christian workers are invited to co-operate, and a cordial welcome is extended to all.

Henry-Wiley Wedding.

Tuesday night at 8 o'clock, Miss Laura Henry was united in marriage to Mr. A. J. Wiley, at the residence of the bride's brother, Clarence Henry, Rev. N. B. Graves of the Baptist Church officiating. The bridal party left on the 10.30 train for Louisville where they will make their future home.

Miss Henry was the only daughter of Mr. and Mrs. F. H. Henry of Route 4, and possessed a host of friends, both in her home neighborhood and in Hickman. We congratulate her upon her choice for her new life. Mr. Wiley is a worthy young man of Louisville, Kentucky. The happy young couple have the best wishes of their many young friends here for many years of a happy life.

In Memoriam.

She has gone. But Christ is with her still.
Oh may He cheer and comfort and keep us from ill.
She has only gone before us, only wait,
And pray that God will let us see the golden gate.
Some day we'll know our loved one and by her be known,
And there in Heaven forever, we claim her as our own.
Dora Nichols Roper was born Feb. 13th 1879. When about some years of age, she joined the M. E. Church South at Harpmony. On Nov. 24th 1897, she became the wife of George Roper. Three little girls and one son blessed this union. Her latter days in her early infancy were years ago. Patiently enduring for two months the dire disease, typhoid fever, and with a bright look, recognition at her loved ones and smile of heavenly sweetness, her spirit passed away to realms of bliss on Oct. 13th, 1906.

Hickman, Kentucky.

Thinks I to Myself.

Thinks I to myself, Now here's Hickman, close to four thousand people, one half of whom have come to us in the last five years, the best town in a business way, socially, educationally and morally, of all the river towns from Cairo to New Orleans." Thinks I, "Are we alive to our present conditions, or our future possibilities?"

We have a system of schools which, for comfort and elegance of building, and efficiency of the teaching corps, may give us good cause for pride.

Fifteen years ago we thought we were building for all time. To day two more rooms are needed to seat comfortably at one time all the pupils enrolled.

To care for those who do come we are giving half-day sessions to the first grade and using a residence building near the College to accommodate the fifth grade. And this is good! but it is only temporary.

We are in the transitive stage from girl to woman. We have been lengthening our skirts by letting out the tucks and narrowing the hems, but we suddenly find ourselves the full stature of woman where only garments for women will meet the conventionalities of society.

We must plan for a city and not for a town. Since the college was built there has grown a West Hickman with a school population almost equal to the entire district of that time. Few realize that within the bounds of the district west of the hill there are approximately two hundred homes with an average of five to the home, making a population of one thousand. If two out of every five are between six and eighteen years of age, then there is a school population of four hundred. Cut it in two. Say two hundred. How many are now enrolled in our schools? One hundred, or less. How many get to school in bad weather? Our teachers say, "Probably less than twenty-five!"

Now Brethren, Verily these things ought not to be.

Our business men find it to their material interest to carry their goods to our doors.

Our national greatness has its foundation in the little school-house found in every community. Dare we ignore this fundamental principle of business and education by making the school privilege so difficult without tramping upon the right of aspiring parents whose only hope is to give their children a good education?

West Hickman is here; East Hickman, is in sight; And South Hickman is looming up in the distance. Why not plan now for a city system of schools?

Give a Ward School to West Hickman now, later establish them to other Wards as our growth demands. Keep the College for the advanced grammar and high school grades. Give to the Ward the best teachers obtainable. Erect a comfortable building on a plan that may be enlarged.

Mark me. You will find a local pride springing up around this school which will give it an efficiency that will surprise you.

W. C. Wilson.

World Now Dependent on America's Copper Supply

By P. A. O'FARRELL.

Expert on International Finance and the History of Copper Mining.

COPPER is more important to the individual citizen of America than most any other metal that is mined at present.

In copper lies the making and solving of economic questions, and the probability of the electrification of the steam railroads of the entire world and the changing from all the old methods of cooking to the one of electricity.

Every individual in America is concerned in the development of the copper industry, whether they know it or not, and every time a new mine is opened up in the world it means a step forward to the luxurious simple life which is bound to prevail when electricity becomes a common commodity.

copper world it means a step forward to the luxurious simple life which is bound to prevail when electricity becomes a common commodity.

Thirty years ago there was not a pound of electrolytic copper made in America. Copper sulphide ores had to be shipped to England and Germany for reduction and refining. This year of 1906 will see about \$600,000,000 pounds of electrolytic copper produced in America, and its value will be about \$150,000,000. Add the lake copper to this and it will be seen that America is producing copper at the rate of \$300,000,000 a year. Europe has to have half this copper, no matter whether it pays 10 cents or 25 cents a pound. It is as necessary to its industrial life as coal or iron. Within seven years America will be selling \$250,000,000 worth of copper yearly to Europe, and the United States will be consuming at the rate of \$250,000,000 worth of copper itself. That is how the captains of industry and the great scientific authorities of Europe calculate the coming demands for copper. It is the age of brass, and bronze, and copper, and America is the only country so far that can supply the marvellously increased demands for the metal. It would be a great misfortune for the industrial world were copper to go beyond 20 cents a pound. Were it to do so it would check consumption and the world's progress. But unless some great new copper deposits are discovered and made producers we shall have a copper famine within the next three years.

Success by the Rule of Three

By DR. NEWELL DWIGHT HILLIS.

Success represents a rule in three: Multiply one's talent by one's opportunity and divide by circumstances and limitations and you have the career. Unfortunately, the divisor called circumstances is often made too large. Strictly speaking, everything depends upon the man. Every day I hear some youth exclaim: "If I only had a chance!" "Give me his place," with similar expressions, indicating an over-emphasis of opportunity, and an under-emphasis of self-reliance. The simple fact is that some of the greatest cotton mills are a thousand miles from the cotton fields, and some of the greatest steel plants are a thousand miles from the iron mines, that gold ore is often smelted at distances remote from the quartz and that South African diamonds are polished in Amsterdam and African silk woven in New Jersey looms.

The more difficult the task the more development and growth there is in mastering it. There is not a tool in the world that cannot be made ten times as good. There is not a business to-day that is not full of wastes that could be saved. The method you are using to-day is already outgrown, and why may you not find a better one? Young man, work more with your head and less with your hands. Go to the library and get some textbooks on your own occupation. There is a fortune waiting for you. Stop thinking about what your father is going to leave you. Forget Solomon's advice to nephews: "Go to thy aunt, thy sluggard!" and fall back on yourself. Consider what opportunities you have lost through indolence and drifting and sloth and ease. The time has come to awake and rise from the dead to a new life of purpose, self-reliance and success!

Man as Old as He Feels

By G. ELLIOT FLINT.

Author of "Power and Health Through Progressive Exercise."

age is of all false conceptions one of the most vicious. Nothing so hastens the infirmities of age as does a decreasing activity. Only when we cease to be active do we become truly old.

After middle-age most men imagine that they are slowly losing strength; so they do less physical work and they eat less, thereby greatly accelerating their decline. For the ultimate effect of reducing our amount of food is to diminish appetite, and this hinders repair. And again, the less we exert ourselves the less we are inclined to exert. This is the chief reason that men become corpulent, short-winded and progressively more helpless as they grow older.

Men 50 and 60 years old have asked me whether I thought they were too old to begin some regular course of exercise. I have answered, "No." When old men begin to exercise they develop almost as rapidly and just as surely as they would were they young men. Their muscles at first become sore, and the unaccustomed work causes their wind improves. I have known men that at 50 were weak and in poor health to become within one year, through the proper kind and amount of exercise, athletic and robust.

Nothing holds off old age like activity. And activity does more than this—it inhibits fatigue. Boys playing at baseball or at any exciting game do not soon tire. And when the mind is actively engaged it, for a long time, experiences no fatigue.

It is not old age that renders us incapable; it is the indolence that tempts to ease, whereby the functions are weakened and the structures disintegrated.

What makes most persons old is the idea that they are old. A man is as old as he feels; because as he acts he is.

The belief that our activities should decrease as our years increase beyond middle-age is of all false conceptions one of the most vicious. Nothing so hastens the infirmities of age as does a decreasing activity. Only when we cease to be active do we become truly old.

Skating Rink Open Three Nights in a Week.

The Management of the skating rink asks us to announce that the skating rink will only be open three nights each week, Tuesday, Friday and Saturday. This arrangement is only temporary, however, and will only continue until the season advances further. Sufficient interest has not been manifested this season to justify running it every night, but it is thought that with cooler weather more attention will be turned toward the amusement.

Cures Rheumatism and Catarrh. Medicine Free

Send no money—simply write and try Botanic Blood Balm at our expense. Botanic Blood Balm (B. B. B.) kills or destroys the poison in the blood which causes the awful aches in back and shoulder blades, shifting pains, difficulty in moving fingers, toes, or legs, bone pains, swollen muscles and joints of rheumatism, or the foul breath, hawking, spitting, droppings in throat, bad hearing, specks flying before the eyes, all played out feeling of catarrh. Botanic Blood Balm has cured hundreds of cases of 30 or 40 years' standing after doctors, hot springs and patent medicines had all failed. Most of these cured patients had taken Blood Balm as a last resort. It is especially advised for chronic, deep-seated cases. Impossible for one to suffer the agonies or symptoms of rheumatism or catarrh while or after taking Blood Balm. It makes the blood pure and rich, thereby giving a healthy blood supply. Cures are permanent and not a patching up. Drug stores, \$1 per large bottle. Sample of Blood Balm sent free and prepaid, also special medical advice by describing your trouble and writing Blood Balm Co., Atlanta, Ga.

Two days after the death of his wife, the Rev. M. Liles died at the residence of J. D. Littleton in Union City. Death was due to old age and general debility. It is thought that the death of his wife hastened the end. The Rev. M. Liles was the pastor of the Cumberland Presbyterian church.

An Imitation Stove Will Give Imitation Heat

Avoid the cheaply constructed, putty jointed stove as you would counterfeit money, because it is just as worthless—and in many cases even more so. For not only does it radiate heat badly, but it wastes its original cost many times in fuel.

The majority of manufacturers, attracted by the phenomenal success of Cole's Original Hot Blast Stove, have imitated and copied it ever since it was put on the market. But in looks only have they been able to reproduce this wonderful heater.

For the features which make Cole's Hot Blast so economical in fuel, so effective in heating, and so durable in construction, are all patented and protected. The joints of the ordinary stove are plastered with stove putty in an endeavor to make them air-tight. When the putty dries up and falls out, cold air is sucked in through the cracks—and the valuable gases from soft or hard coal, which should be burned, go up the chimney, along with most of the heat.

Cole's Original Hot Blast Stove

Burns Soft Coal, Lignite, Hard Coal or Wood

Made without stove putty. It remains air tight during the entire life of the stove, and is sold under the following guarantee, which cannot be made on any other heating stove in the world:

GUARANTEE

We guarantee a stove of this make and make to the owner the money back if the stove does not heat the room in which it is placed, or if it does not burn the fuel as economically as Cole's Original Hot Blast Stove. We guarantee a stove of this make and make to the owner the money back if the stove does not heat the room in which it is placed, or if it does not burn the fuel as economically as Cole's Original Hot Blast Stove.

The big expense of heating your home is in the fuel and not the first cost of your stove. Don't let yourself be persuaded to buy anything but Cole's Original Hot Blast Stove. Ask for free booklet on "Scientific Combustion," which will show you how to heat your home twice as comfortably at one-half the present cost.

See the name "Cole's Hot Blast Stove from Chicago," on the feed door of each stove. None genuine without it.

Ever since the Civil War Mrs. Mary Ann Edwards in gold has been lying in a closet in the cabin of Mrs. Mary Ann Edwards who died in Mayfield recently at the age of seventy-four years. She lay on her death-bed of the hiding place of the gold, but no one believed in thinking her mind was wandering. Yesterday a search was made of the wealth was discovered. The gold in which it was placed had withered with its weight.

HOME CIRCLE COLUMN

How often is a fine nature warped,
a really good disposition spoiled by
the omission of a few timely words
of encouragement. A child receive-
ing nothing but blame and constant
scolding, in time becomes deaf to
correction, sullen and defiant, and in
the end one of those children who
neither hears nor heeds. On the
other hand a child that is occasion-
ally encouraged, is proud of pleasing
another, consequently is pleased
with himself and urged to renew ex-
ortions to gain a repetition of that
praise so dear to the human heart,
be that heart young or old.

Some men are too busy to give
any time to their wives and children.
They leave home early in the morn-
ing, stay away all day, and come
back at night filled with worldly
cares, morose, uncommunicative. If
it is ever suggested to them that
they are doing wrong, they justify
themselves on the ground that it is
necessary for them to make a living,
and that this leaves them no time
for other things. Usually the plea
is without foundation, for it is not
merely a comfortable living that they
are seeking after but the ac-
cumulation of needless wealth. Any
man that is too busy to be a gentle-
man in his manners and a christian
in his spirit within the circle of his
own home is busier than he ought
to be.

"Oh where is my wandering boy
to-night?" has been sung thousands
of times with wonderful tenderness
and pathos, but how many of the
singers, or hearers, ever gave heed
to the pertinent inquiry of the song?
Statistics are frequently published
showing the great majority of our
boys spending their nights away
from the better influences of home.
As they grow into youth and early
manhood they seem to grow into the
world and worldly ways. If the
singer's plaintive question could be
answered publicly in any ordinary
meeting where the song is sung, it
would cause a tremendous sensation,
and many a heart would bow down
in sorrow and pain. For some reason
it is just as well that the night-
ly haunts of "the boys" are not
specifically mentioned in local public
meetings, and yet the matter is one
of common report. The boys are
too often out of home, out of the
church and Sunday school, out of
organizations of moral character,
and into the world "for all it is
worth."

How much better to use some of
the good things of life as we go a-
long; to make our humble homes as
cheery and bright as possible now.
Do not starve today, either body,
mind or soul, thinking that poverty
will knock at your door tomorrow.
Don't hoard and scrimp through all
the best years of your life that you
may be generous in your will. Life
is uncertain, and it is better to make
your children happy while they are
under the home roof; to call to that
home every agency that will make
their lives sweeter and better, than to
deny them these that you may
leave them a large account when
you are gone. It will be too late for
them to return kindness to you then.
Don't keep the parlor shut up and
live in the kitchen, unless you want
the boys and girls to be anxious to
leave you. Don't think they must
not go anywhere but to Sunday
school and prayer meeting; remem-
ber you were young once yourself.
Do not ask them to walk two miles
to a singing or lecture after working
hard all day, when there are two or
three horses in your barn that would
enjoy the trip as much as they.
For God's sake show them you think
as much of them as you do of your
beasts if not more.

Take time to enjoy the society of
your friends, especially compani-
onship of your children; it will only be
a few years at the best that they
will be with you, and these ought to
be years of happiness to both you
and them. Would you not rather
have them look back when out in

GAVE UP SUPPORTER.

"I wrote a supporter for four

the medicine would help me. After
taking Cardui I gave up my sup-
porter and am now well."

the world to that blessed home
(though it may not have been a man-
sion) where they received more joy
and comfort than the world can af-
ford, than to have them forget home
in a week and hardly return to a
burial? If we are ever happy in
this life we must enjoy what every
day brings. We should be grateful
and glad for all the good that comes
into our lives, and patiently bear
our trials, believing that all things
if rightly used will fit us for the en-
joyment of perfect happiness hereafter.

Too many of us are looking for-
ward to happiness in the future
years instead of getting all the en-
joyment possible out of the present.
It is well to remember that the time
never will come, in this world, when
— just where and when we want it.
The only way to be happy is to en-
joy all we have to the utmost as we
go along. It is right to lay up for
old age in youth; right to prepare
for a rainy day, but it is not right
to bend all our energies to this end
and put off until the future the hap-
piness we might enjoy every day.
It is very common to see people
working and saving, denying them-
selves all recreation and many com-
forts, to lay up money to buy more
land, to enlarge their stock (to save
for their children) thinking that
when they have accomplished this
they will be happy and begin to take
comfort. The hoped for point may
never be attained, or if it is, sick-
ness or death may have come first
and the dear ones whom we expect-
ed to be happy with may be gone
forever.

Boys, don't hang around the cor-
ner of the streets. If you have any-
thing to do, do it promptly, right
off, then go home. Home is the
place for boys. About the street
corners and at the stables they learn
to talk slang, and they learn to
sneak, to smoke tobacco and to do
many other things which they ought
not to do.

Do your business and then go
home. If your business is play,
play and make a business of it.
We like to see boys play good, ear-
nest, healthy games. If we were the
town council we would give the boys
a good, spacious playground. It
would have plenty of green grass
and trees and fountains, and broad
spaces to run and jump and play
suitable games in. We would make
it pleasant, as lovely as it could be,
and we would give it to the boys to
play in, and when the game was en-
ded we would tell them to go home.

Growing Tide of Immigration Will Turn.

The first step toward deflecting
New York's Immigration tide and
encouraging new settlers in the rural
regions of the South will be taken
soon when a shipload of Belgians
will be taken direct to the port of
Charleston, S. C., from Bremen in
a North German Lloyd steamer.

The experiment is one in which
the immigration officials are greatly
interested, and although the im-
migrants will be forced to undergo
the same rigid scrutiny at the South-
ern port as is required at Ellis Island
the project will be helped along in
other respects as much as possible.

Arrangements for bringing the
Belgian immigrants South were made
by a special immigration commission
of South Carolina. Efforts are
being made to perfect a plan for the
establishment for a regular im-
migrant line between Charleston and
some European port.

LEST WE

forget—Baby is restless, can't sleep
at night, won't eat, cries spasmodi-
cally. A bottle of White's Cream
Vermifuge never fails to cure. Every
mother should give her baby White's
Cream Vermifuge. So many times
when the baby is pale and fretful,
the mother does not know what to
do. A bottle of this medicine would
bring color to his cheeks and laugh-
ter to his eyes. Give it a trial.

If you want a prosperous town
where people can come who are dis-
posed to make homes, then do away
with and bury from sight all jealousy
and spite work, move for common
prosperity and mutual benefit.
Wake up, rub your eyes, roll up
your sleeves and go to work. Do
not work with fear and trembling,
but take for granted that blood will
tell. Leave results to themselves,
borrow no troubles, but all unite to
make it the biggest kind of a town.
"Go to work."

A MOST WORTHY ARTICLE

When an article has been on the
market for years and gains friends
every year, it is safe to call this
medicine a worthy one. Such is
Ballard's Horehound Syrup. It
positively cures coughs and all
pulmonary diseases. One of the
best known merchants in Mobile,
Ala. says: "For five years my
family has not been troubled with
the winter coughs we owe this to
Ballard's Horehound Syrup. I know
it has saved my children from many
sick spells." Sold by Cowgill's
Drug Store and Helm & Ellison.

Mr. Walker Baker, with the

was united in marriage last Sunday
to Miss Mary Hicks, the daughter
of Squire and Mrs. R. P. Hicks, of
the Third Civil District. The cere-
mony was performed by Squire J.
B. Bruer at 3 o'clock, after which
the guests consisting of the young
people and representative citizens
were invited to a right royal spread
in the dining room. We are told
that the event was very happy, joy-
ous and successful.—Troy News-

A Notice to Our Patrons.

Hickman, Ky. Oct. 10, 1906
To our Patrons:

We published a notice in the Hick-
man Courier for four consecutive
weeks that all light and water bills
were due and payable at our office
on the first of each month and par-
ties failing to pay on or before the
tenth of the month would be cut out.
The fee for cutting in is \$1.00 each
for water and lights.

Now on account of our not having
had a permanent office we have not
enforced this rule strictly. But as
our office has now been fitted up in
the Ice Factory Building, convenient
to all, we beg to state that we will
enforce this rule beginning Nov. 1st
1906 and will show no favoritism.
To run the Water & Light plant
successfully necessitates prompt col-
lections and we ask it as a favor
that all of our patrons assist us by
paying these bills promptly.

This rule was not originated by
us, but is in the City Ordinances gov-
erning the Electric Light and Water
Works system. Phone 48.
